

PAGE RESOURCING SERVICES

Market Mapping and Research Solutions

Our Market Mapping and Research Solutions are a key business pillar of Page Resourcing, the Recruitment Process Outsourcing (RPO) arm of PageGroup, which specialises in high-volume recruitment and specific project recruitment needs. Below are the range of services we offer for your recruitment project:

- Our **compensation benchmarking** services gives an impartial and accurate idea of pay, welfare and benefits information to help you make informed and effective remuneration decisions, while at the same time accounting for variations that need to be considered
- **Payroll** services
- **Outplacement** services
- Our **market research** and **talent mapping** services provide a great way to obtain information about key competitors or markets, and use these insights to predict behaviours while making better business decisions. The primary source of our information comes from our pool of candidates with validation through our extensive network of clients and partners locally. By engaging our service, you will be able to receive a comprehensive overview of the following:

AN OVERVIEW OF YOUR COMPETITOR'S ORGANISATION

Company Name
Presence – HQ and regional

HUMAN RESOURCES

Team size – by department/regions
Management leadership
Organisation chart with compensation
Key hires
Training and development functions
